Media Bureau

PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Charles Crawford
respectfully petitions the FCC to institute a Rule Making
proceeding to amend the FM Table of Allotments to add
Channel 224A at Lone Wolf, Oklahoma.

DISCUSSION

Petitioner respectfully submits that the public
interest would be served by allocating Channel 224A to
Lone Wolf, Oklahoma as that community's first local FM
service. Lone Wolf, Oklahoma is an incorporated community
with a population of 500 people.¹ Lone Wolf has its own
mayor, its own public schools, its own post office,
volunteer fire department, police department, city offices

¹ U.S. Census 2000

and a number of local churches. Lone Wolf, Oklahoma is a community that is certainly deserving of local FM service. "Local radio stations play an important role in their communities, providing local news, information and entertainment to residents, and generally serving as good corporate citizens in the local community life. This is particularly true in smaller towns, where the radio stations are limited in number. Yet there are still rural areas of our country that do not have even one local radio station."² The proposed channel 274A will provide additional diversity and an outlet for local self-expression to Lone Wolf residents and therefore is in the public interest.

Attached hereto is a channel study confirming that Channel 224A can be allocated to Lone Wolf, Oklahoma, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992).

Reference coordinates for Channel 224A at Lone Wolf, Oklahoma are:

34 58 53 N
99 09 53 W

Should this petition be granted and Channel 224A be

allotted to Lone Wolf, Petitioner will apply for Channel 224A at Lone Wolf, Oklahoma and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford
